BADALONA

300 T TRAVEL LIFT

We are proud to offer a 300 T travel lift at our yard, complementing our existing 75 T lift. This powerful equipment allows us to service a broader range of yachts with greater efficiency and precision.

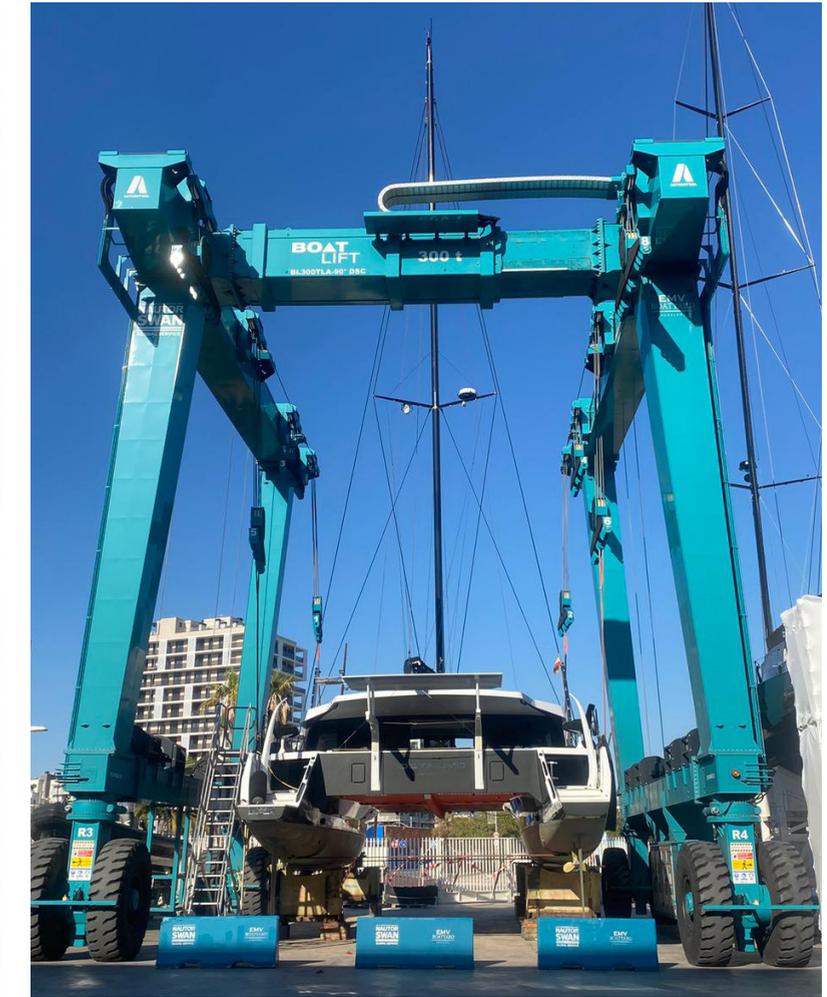

Specifications:

- 300 Ton-lift capacity
- 11 mt width pit
- 5 mt draft

Whether you need routine maintenance or a complete refit, our enhanced lifting capabilities ensure your yacht is in the best hands. Schedule your service today and experience the difference in our upgraded facilities.

FACILITIES UPGRADES

We have also increased our dry dock and docking spaces, accommodating yachts up to 45 meters, and expanded our shed to facilitate more extensive and complex jobs. The yard now offers additional 5000 sqm of storage for winterization and mast space, along with 32 dock spaces.

REFIT

Prior to start a refit job, EMV Boatyard will have an initial meeting with the parties involved in the project, usually owner or owner's representative, and define the scope of the project, needs and plans, creating a personalized project analysis.

REPAIR

Our staff has different technical skills and specializations and therefore we have capacity to tackle any type of repair in a tight frame space with our own team. We will aim to fit within your schedule to solve any repair or damage on board.

We undertake rig and mast services, fiberglass modifications, major collision repairs, keel damages, rudder services and even a simple engine leak.

We have experience in damage claim and yacht insurance dealing.

MAINTENANCE

Carrying out a proper maintenance program will avoid unexpected repairs which let your boat down for the season.

Schedule your winter or Off-season maintenance at EMV Boatyard.

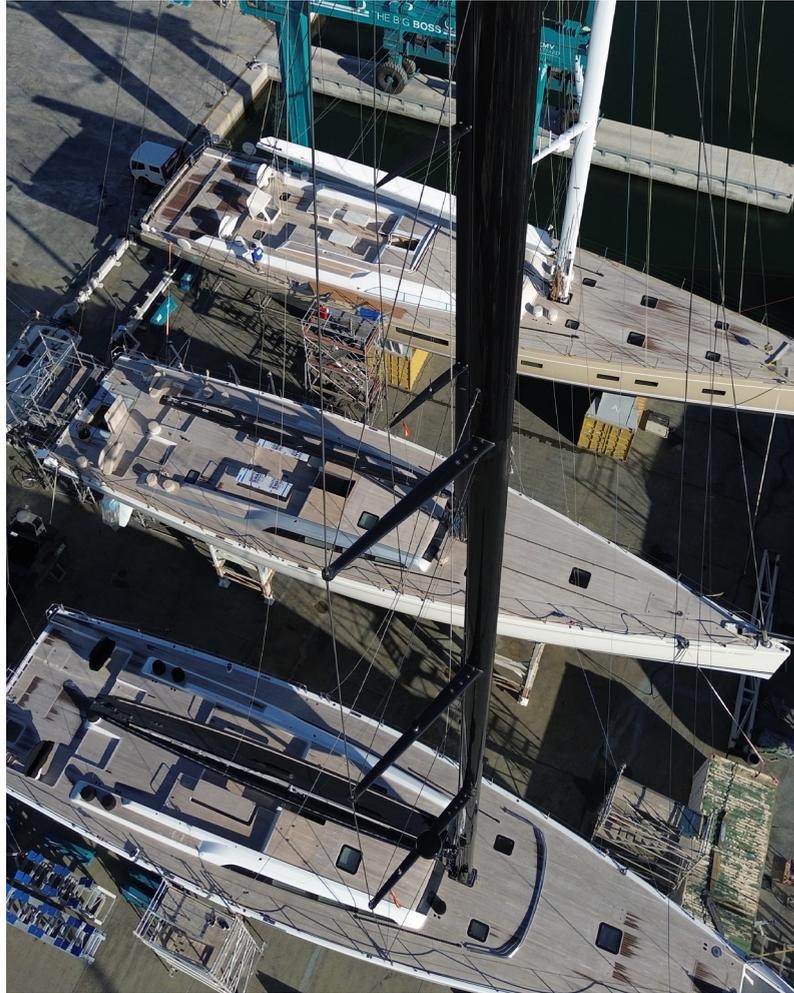

ASSISTANCE

A mobile workshop and dedicated team is ready to assist you wherever your are.

Most of our customers taking part in the different races will benefit of our assistance on the races around the Med.

We have agreements with other yards located worldwide allowing us to organize maintenance or repairs if the boat is overseas moving our own team if needed.

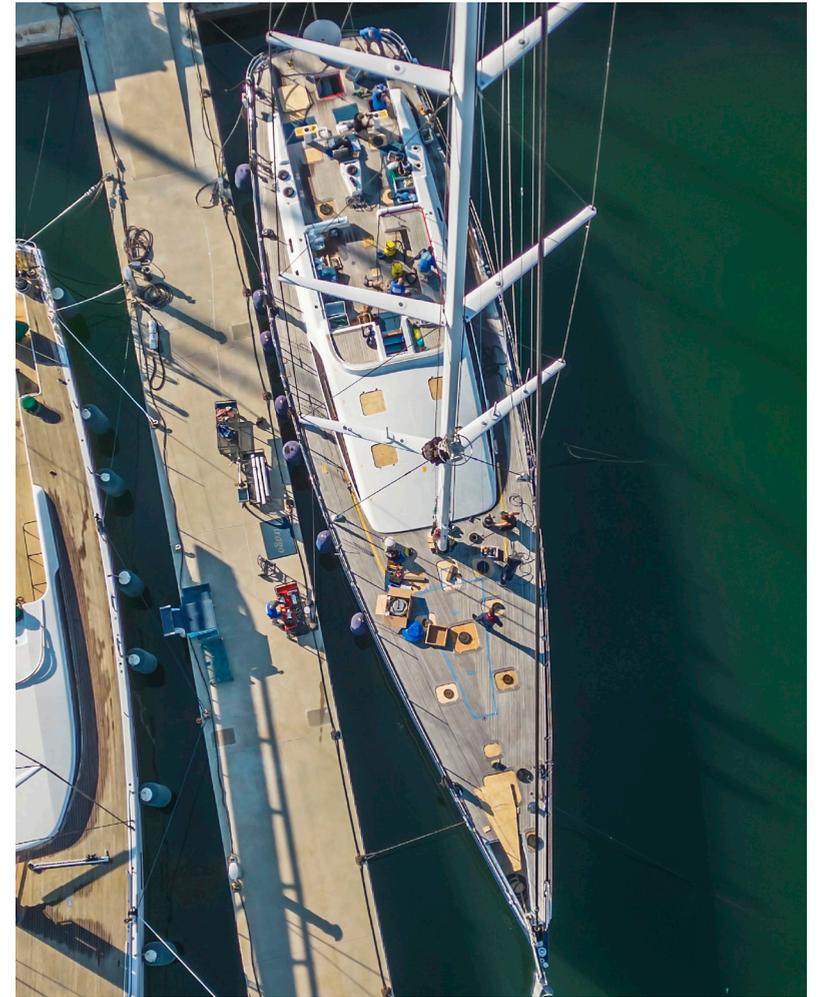

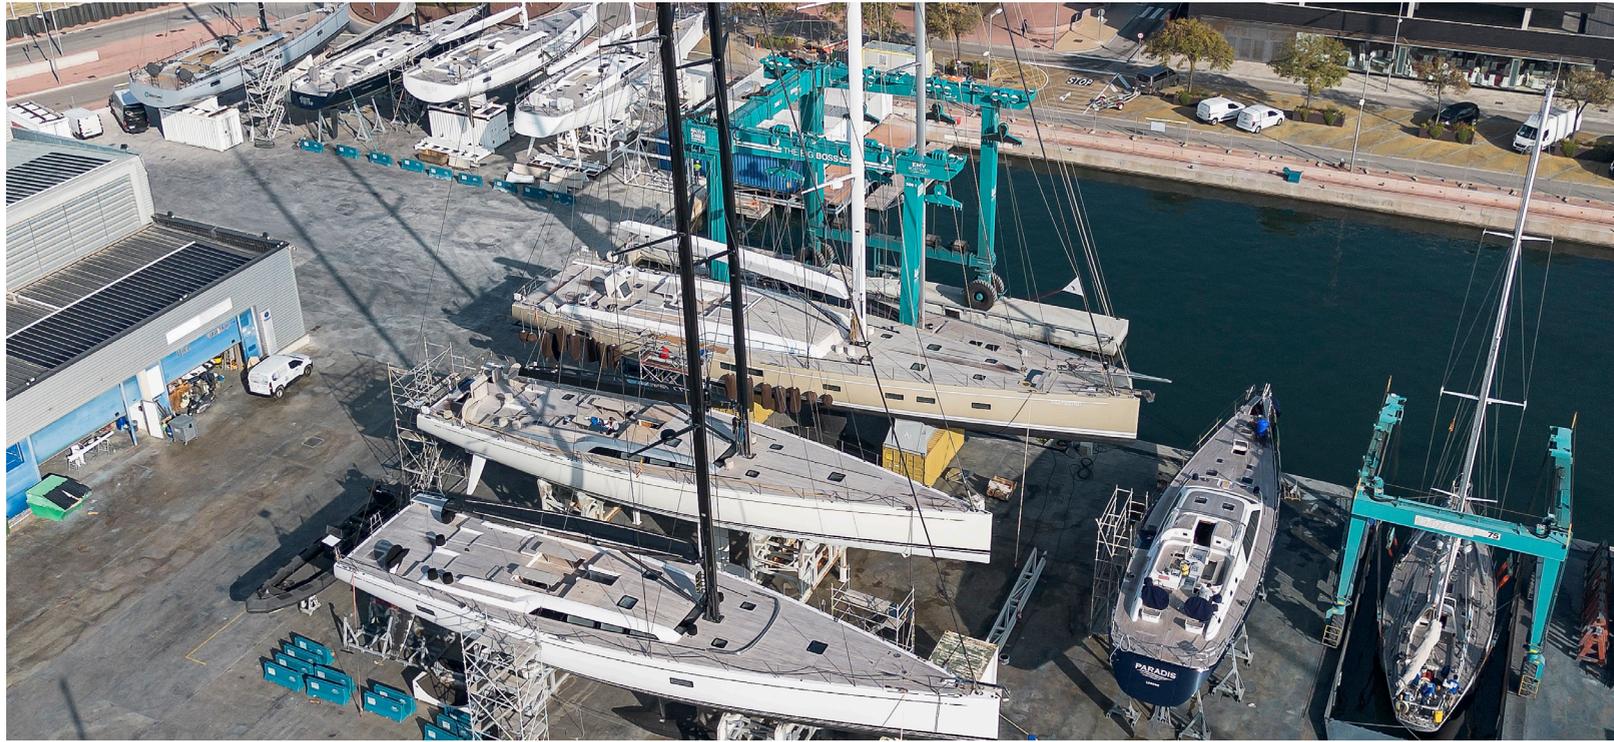

IF YOU'RE IN NEED OF
ASSISTANCE OR CONTEMPLATING
A REFIT, LET US BRING OUR
EXPERTISE DIRECTLY TO YOU.
SCHEDULE AN ONBOARD VISIT,
AND OUR DEDICATED TEAM
WILL BE HAPPY TO TRAVEL
WORLDWIDE TO MEET YOUR
NEEDS..

REFIT, REPAIR, MAINTENANCE & ASSISTANCE

MEET BUDGET AND DEADLINES

Being conscious about the importance of the limited available time for captains and owners, one of our key and most important points is to meet the agreed budget and boat delivery dates.

Our policy and methodology will allow customer to follow the job evolution, costs and timing, avoiding last minute extra-costs or delays.

Successful projects start with a good definition of job scope and task breakdown, initiating a professional relation between the Project Manager and the customer at the early stage of the project and consequently follow-up meetings during the work process.

Our transparency policy will allow customer to follow the job evolution, costs and timing.

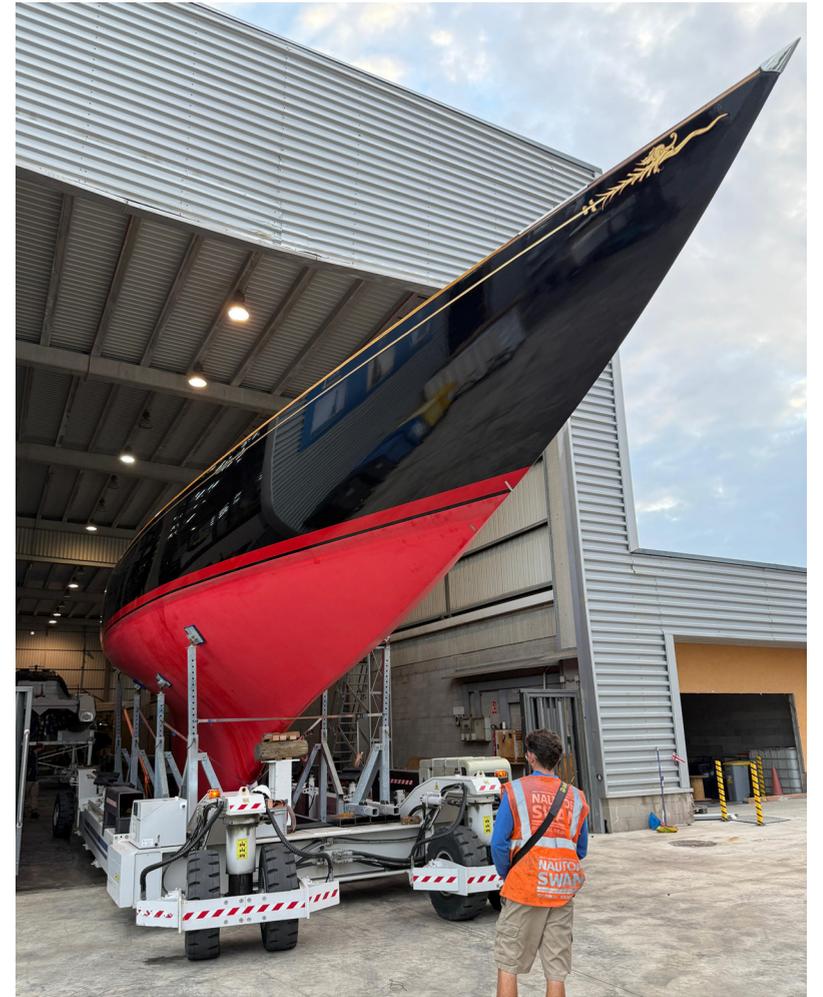

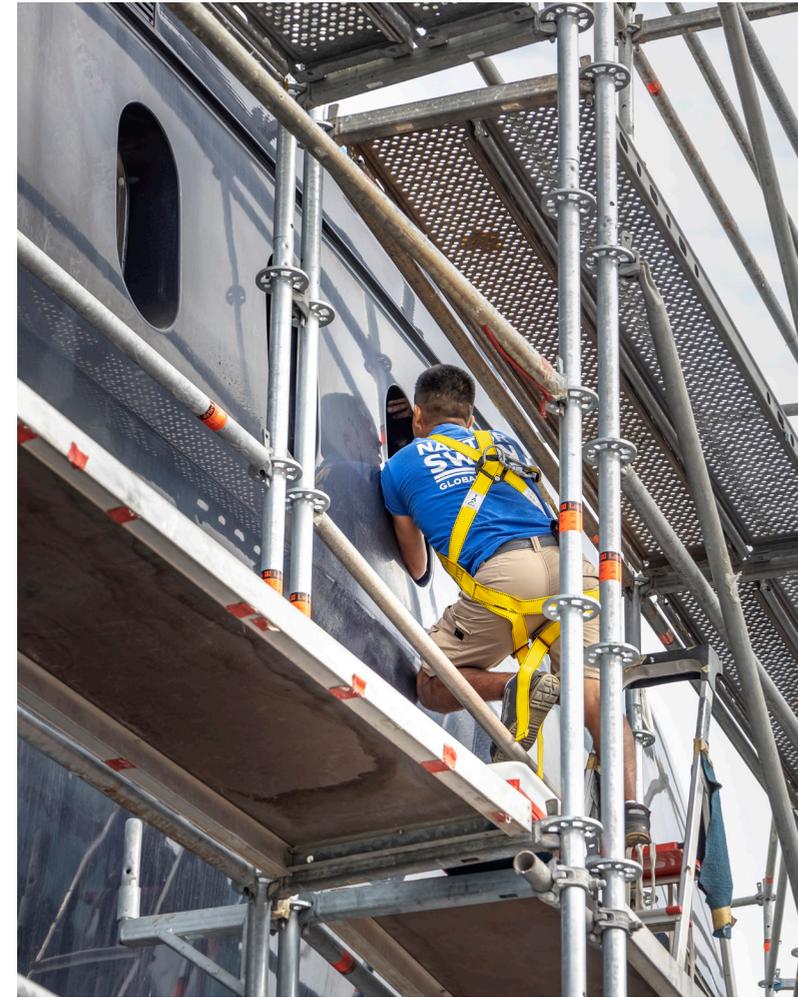

DEDICATED PROJECT MANAGERS

A dedicated Project Manager will benefit the project results and execution, the PM will:

- Be the sole contact person.
- Provide initial support to define the scope of the work and suitable technical solutions.
- Supply the necessary specifications and/or drawings.
- Create a planning schedule.
- Execute and control the project by managing the resources, materials and timing.
- Provide information. i.e. reports and feedback to Owner or Owner's representative.

CORE VALUES

SPECIALIZATION

NAUTOR SWAN GLOBAL SERVICE

The Global Service team, with good knowledge of the Swan line and working closely with all the departments in Finland to assist Swan owners with any request, has the best understanding of the technical specifications and requirements of your Swan. The team of experts provides quality workmanship, which is fully guaranteed. Whatever the age or condition of your Swan, if you are planning service, upgrade, refit or repair work, the Global Service team will guarantee to the owner the same service and attention to detail as when the boat was built.

From technical queries and spare parts to the most complex refit, the team will ensure the maintenance of Swan yachts meets the highest standards. Repairs and refit could be certified by the Global Service department.

Keeping the Swan under the Global Service program assures the refit and repair certificates that add value to the boat. Having six different locations in the World; Badalona, Palma, Scarlino, Hamble, Newport R.I., Brisbane, as well in Finland, provides more flexibility to be able to satisfy any crew and owner's needs.

NAUTOR SWAN GLOBAL SERVICE

Proper certified maintenance will prolong the life of your yacht, maximise the pleasure of your ownership and enhance her long-term value. Our maintenance program will always ensure she will be fully ready for each season and provide reliable service and enjoyment wherever your cruising takes you.

REFIT

Nautor Swan Global Service offers personalized project analysis based on each Swan owner's needs. The team has managed and delivered many refit projects of various magnitude and complexity, and it is this experience, coupled with Nautor's exclusive product knowledge, that make the service truly unique.

YACHT CARE & GUARDIANAGE

From yacht cleaning to onboard provisioning, carrying out general maintenance and yacht care - Owners will only need to think about their next anchorage.

RACING ASSISTANCE

Nautor Swan Global Service is present at the most iconic regattas around the world available to assist preparing your yacht to maximise her potential and to provide ongoing support and service during the event. For the ClubSwan OD fleet, a special race preparation program and dedicated team is available.

SPARE PARTS SUPPLY

Nautor, maintains a complete inventory of approved spare parts which are required for everyday maintenance of your Swan, as well as most custom components that Swan owners will not find elsewhere. No matter where you are in the world, Nautor Swan Global Service will coordinate delivery and installation if you need it.

TECHNICAL CONSULTANCY, SURVEYS AND CERTIFICATES

Nautor maintains an extensive library of original drawings, specifications, records and samples for each boat built to date. The team is ready to provide technical consultancy for any upgrade or modification needed, taking advantage of the know-how and workmanship based in Finland.

RESTORATION

Nautor is proud of its legacy supporting the restoration of cherished classic Swans.

WORLDWIDE ASSISTANCE

Through the regional Nautor Swan Global Service Centers network located in key yachting hubs and also with a dedicated mobile team available to travel to your boat, Nautor Swan Global Service is ready to service your Swan in any part of the world.
